## USE OF TEEN HELPERS IN FAMILY CHILD CARE

The family child care rule defines a helper as “a person at least 13 years of age and less than 18 years of age who assists the provider with the care of children.”

Providers are responsible for the **supervision of their helper(s), and are ultimately accountable for the actions of anyone assisting or having contact with children in care.** Helpers can assist the provider with meal preparation, activities, interaction, or reading with the children. They can also provide a second set of eyes and ears, but should never be left alone in order to replace the provider’s own supervision of the children in care.

For the protection of teen helpers and the safety of children in care, providers should limit situations where a teen helper or child would be placed in a vulnerable situation, such as toileting, diapering, or interactions unsupervised by the provider. Providers should also have a frank discussion with their helper(s) regarding expectations and guidelines for their involvement with children. By doing so, providers are protecting everyone in their family child care home.

After careful consideration, if providers choose to use a **teen helper**, they must make sure their helper has met the **following requirements**:

1. A completed background study prior to assisting with the care of children.
2. Training on reducing the risks of sudden unexpected infant death (SUID) and abusive head trauma (AHT) prior to assisting with the care of infants and children.
3. Completion of 6 hours of child care related training within the first year of employment.

**Olmsted County Variance Requests – MN Rule 9502.0367 Capacity for Family Child Care** – please note that a change has been implemented by Olmsted County Licensing regarding variances as of 5/19/2016; the updated variance request form can be found on the county web site.

\* Variance requests **will not be approved more than 3 months prior** to the start date of the variance. The variance request enrollment form must include the name, date of birth (NOT due date of a child), and the specific start date for all children who will be enrolled during the variance period. If you have any questions, please contact your licensor.

## DWI’s, DUI’s and Abuse of Prescription Drugs – Here is what you need to know!

Olmsted County Licensing is providing the following DHS guideline to assist in determining what may be considered a **chemical use problem** as designated in MN Rule 9502.0335, subp. 6A “Chemical use” includes alcohol abuse, abuse of prescription controlled substances, and use of illegal substances. The rule requires that an applicant or provider shall not be issued a license or the license shall be revoked, not renewed or suspended if the applicant, provider, or any other person living in the day care residence or present during the hours children are in care, or working with children, abuses prescription drugs or uses controlled substances as specified in Minnesota Statutes, chapter 152, or alcohol, to the extent that the use or abuse has or may have a negative effect on the ability of the provider to give care or is apparent during the hours children are in care. Caregivers who have abused prescription drugs or have been dependent on controlled substances as specified in Minnesota Statutes, chapter 152, or alcohol, such that the use, abuse or dependency has had a negative effect on the ability
